ARTICLE VI

CONDOMINIUM UNIT DESCRIPTION AND PERCENTAGE OF VALUE

The Condominium consists of 173 residential Units. Each Unit is described in this paragraph with reference to the Condominium Subdivision Plan attached hereto as Exhibit B. Each Unit shall include all that space contained within the interior sides of the finished, unpainted perimeter walls, and within the ceilings and finished subfloor, all as shown on the Plan and delineated with heavy outlines. For all purposes, individual Units may hereafter be defined and described by reference to this Master Deed and the individual number assigned to the Unit in the Plan. The Percentage of Value assigned to each Unit is set forth below and shall be determinative of the proportionate share of each respective Co-owner in the proceeds and expenses of the Association and the value of such Co-owner's vote at meetings of the Association and the undivided interest of the Co-owner in the Common Elements. The total percentage value of the Condominium is 100%. Each Unit Percentage of Value shall be equal and shall be the number obtained by dividing 100 by the number of Units included in the Condominium. The method and formula used by Developer to determine the foregoing percentages was to determine that the expenses incurred by the Association in connection with the various units should be approximately equal.

ARTICLE VII

EASEMENTS, RESTRICTIONS AND AGREEMENTS

The Condominium is subject to the following easements, restrictions and agreements:

(a) Developer hereby reserves permanent nonexclusive easements for ingress and egress over the roads and walks, if any, in the Condominium and permanent easements to use, tap into, enlarge or extend all utility lines in the Condominium, including, without limitation, all communications, water, gas, electric, storm and sanitary sewer lines, all of which easements shall be for the benefit of the Additional Land described in Article IX of the original Master Deed whether or not such land is added to the Condominium and for the benefit of any other land adjoining the Condominium (or any expansion thereof) if now owned or hereafter acquired by Developer or its successor. Without limiting the foregoing, the foregoing easements reserved by Developer include a permanent nonexclusive easement for the installation and use of sanitary sewers, watermains and connections, which easements are depicted on the Plan. Developer has no financial obligation to support such easements.

(b) Developer reserves the right and power to grant easements over, or dedicate, portions of any of the Common Elements for utility, street, safety, conservation or construction purposes, and all persons acquiring any interest in the Condominium shall be deemed irrevocably to have appointed Developer and its successors as agent and attorney-in-fact to make

such easements or dedications. After completion of construction of the Condominium, including any expansion thereof, the foregoing right and power may be exercised by the Association.

(c) Developer may hereafter include within the Condominium (pursuant to an expansion, conversion or consolidation of the Condominium) facilities related to the operation of a golf course or roads, recreational facilities or other common elements or facilities intended to be shared in use by Co-owners of the Condominium and by others, in which event Developer may reserve an easement for the use of such roads, common elements or facilities, and Developer shall provide in its discretion a reasonable method of allocating the expense of maintaining and operating such roads, common elements or facilities between the Association and other persons entitled to the use of such roads, common elements or facilities. Developer shall also have the right, but not an obligation, to add improvements to the Condominium subject to the interest of a lessee, which improvements may be used in connection with the operation of a golf course.

(d) Developer may hereafter (but shall not be required to) add all or portions of a road to the Condominium or add recreational facilities, which may include a clubhouse, intended for the mutual use of Co-owners of Units in the Condominium and the owners or occupants of other residential units. Whether or not the road and/or such recreational facilities are hereafter included as part of the Condominium, the Association shall be obligated for a portion of the expense of maintaining, repairing or replacing such road or facilities, which portion shall be determined from time to time prorata according to the total number of residential units using such road and recreational facilities and the number of Units in the Condominium.

(e) In accordance with the provisions of the Master Deed of Country Club Village of Northville - II (the "CCV-II Condominium"), being Wayne County Condominium Subdivision Plan No. 253, as recorded on November 30, 1988 in Liber 23986, Pages 883 through 947, Wayne County Records, there shall be easements for ingress and egress over all roads in the Condominium and in the CCV-II Condominium and easements to connect all utility lines and communication lines in the Condominium and in the CCV-II Condominium, which easements are reciprocal for the benefit of the Condominium and the CCV-II Condominium.

(f) In accordance with the provisions of the Master Deed of Country Club Village of Northville - I (the "CCV-I Condominium"), being Wayne County Condominium Subdivision Plan No. 252, as recorded on November 28, 1988 in Liber 23982, Pages 652 through 700, Wayne County Records, there shall be easements for ingress and egress over all roads in the Condominium and in the CCV-I Condominium and easements to connect all utility lines and communication lines in the Condominium and in the CCV-I Condominium, which easements are reciprocal for the benefit of the Condominium and the CCV-I Condominium.

(g) Pursuant to the provisions of the Master Deed of the CCV-II Condominium, all members of the Association have the non-exclusive right to use the community building, pool, and tennis courts included as general common elements in the CCV-II Condominium (the "Common Facilities"). The Association shall be obligated for a portion of the expense of

maintaining, repairing or replacing the Common Facilities, which portion shall be determined from time to time prorata according to the total number of residential units using such recreational facilities and the number of Units in the Condominium. All such expenses shall be expenses of administration of the Condominium.

(h) The Condominium will be serviced by easements for road, sanitary sewer and watermains, the preliminary locations of which are depicted on the Plan, and the final locations of which are subject to the approval of the Township of Northville.

(i) In the event any portion of a Unit or Common Element encroaches upon another Unit or Common Element due to shifting, settling, or moving of a building, or due to survey errors or construction deviations, reconstruction or repair, reciprocal easements shall exist for the maintenance of such encroachment for as long as such encroachment exists, and for maintenance thereof after rebuilding in the event of any destruction. There shall be permanent, non-exclusive easements to, through and over those portions of the land, structures, buildings, improvements and walls (including interior Unit walls) contained therein for the installation, maintenance and servicing of all utilities in the Condominium, including, but not limited to, lighting, heating, power, sewer, water and communications including telephone and cable television lines. There shall exist permanent easements of support with respect to any Unit interior wall which supports a Common Element.

ARTICLE VIII

This Master Deed and any Exhibits hereto may be amended in the following manner:

(a) Amendments may be made and recorded by Developer or by the Association.

(b) If the amendment will materially change the rights of the Co-owners or Mortgagees, then such amendment requires the written consent of not less than two-thirds (2/3) in value of the votes of the Co-owners and Mortgagees of the Units (unless a greater majority is specified in the Condominium Bylaws). A Mortgagee shall have one vote for each mortgage held, which shall be weighted according to the mortgaged Unit's percentage of value.

(1) To modify the types and sizes of unsold Units and the General and/or Limited Common Elements adjoining or appurtenant to unsold Units;

(2) To amend the Condominium Bylaws, subject to any restrictions on amendments stated therein;

(3) To correct arithmetic errors, typographical errors, survey errors, or any similar errors in the Master Deed, Plan or Condominium Bylaws;

(4) To clarify or explain the provisions of the Master Deed or its exhibits;

(5) To comply with the Act or rules promulgated thereunder or with any requirements of any governmental or quasi-governmental agency or any financing institution providing or proposing to provide a mortgage on any Unit or to satisfy the title requirements of any title insurer insuring or proposing to insure title to any Unit;

(6) To expand or convert the Condominium or to consolidate the Condominium with one or more other Condominiums established upon the Additional Land and to redefine Common Elements and adjust Percentages of Value in connection therewith and to make any other amendments expressly permitted by this Master Deed;

(7) To make, define or limit easements affecting the Condominium;

(8) To record an "as-built" Condominium Subdivision Plan and/or consolidating master deed;

(9) To revise the Plan, as necessary, to conform to any construction options offered by Developer and elected by any purchasers of Units.

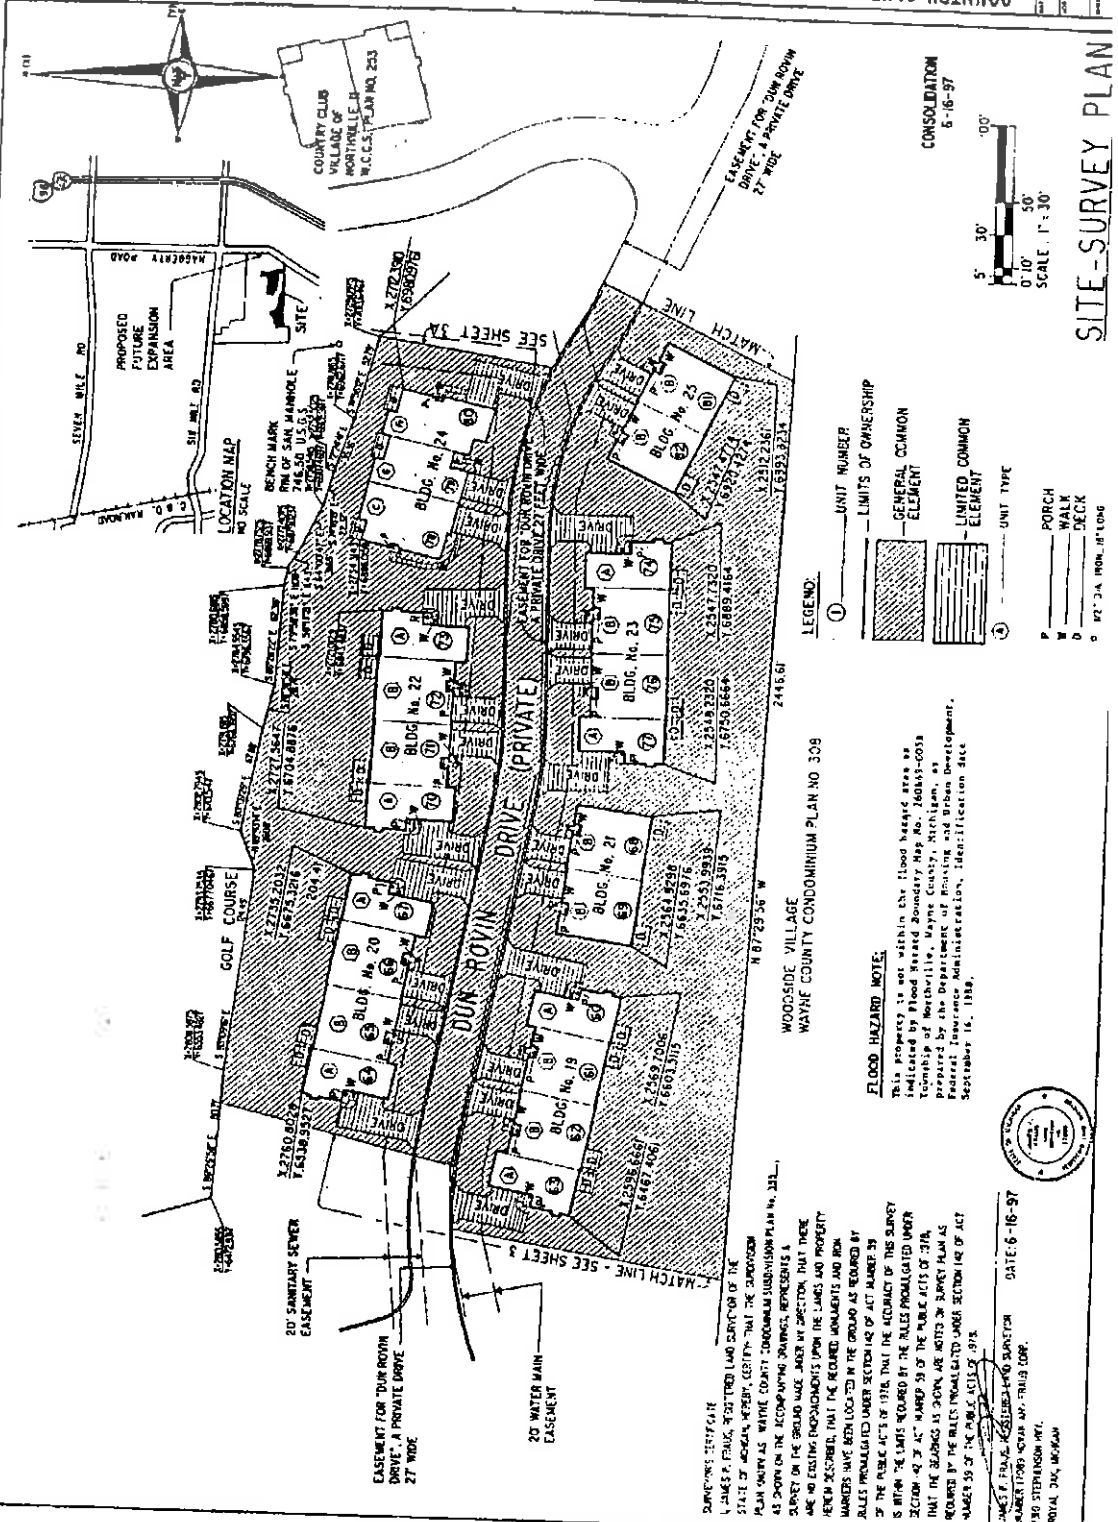

(d) Notwithstanding any other provision of this Article VIII, the method or formula used to determine the Percentages of Value of Units in the Condominium, as described above, and any provisions relating to the ability or terms under which a Co-owner may rent a Unit, may not be modified without the consent of each affected Co-owner and Mortgagee.
